

# INTRODUCING BEACON MARKETING

The best way to become familiar with beacons is to watch the overview direct from Google that will give you a basic overview of beacons and the physical web.

If you are viewing this on your computer, click on the image above to watch the video or go to YouTube and search for "Introduction to the Physical Web".

## **Johnny Beacon Marketing**

We help businesses set up Google Nearby Notifications by deploying Bluetooth Low Energy Beacons inside and outside of your business.

Depending on your package, your business will receive one to two physical beacons that will send a 40

character message to any Bluetooth enabled Android or iPhone<sup>\*</sup> device within 100 feet of you business.

We also give you the option to purchase additional Bluetooth key-chain beacons to give to your employees that will broadcast your business to anyone within 100 feet of their key-chain.

<sup>\*</sup> iPhones require the Physical Web App to be installed to receive Nearby Notifications

PACKAGES

We have 3 different packages that include multiple features that are able to be tailored to your business's individual needs.

## BEACON STARTER PACKAGE

### Johnny Beacon's Viral Mobile Marketing System

This feature allows us to create viral referral marketing campaigns by allowing your customers or subscribers to promote your business for you. You can create an army of hungry fans willing or even begging to share your site to their friends for points that they can collect in order to unlock a free gift or mobile offer.

### Two Tiered Mobile Coupon Delivery System

This feature offers a 2 tiered mobile coupon delivery system. The first mobile coupon is delivered via the system in the professional package above. However, they are then routed to a secondary thank you page with a more profound offer that is only redeemable via points that are earned by friends signing up for the first coupon. This system can literally turn 10 mobile coupons into 100 in a week.

### **Point Based Awards System**

As mentioned above, our system will automatically assign each referral their own unique url that tracks their referrals and points.

### **Referral E-Mail Notifications**

This feature automatically sends out emails based on activity. If someone signs up under someone's referral id, that person receives an email notification with an update on their current points and how many points they need to unlock their reward.
